---

WORK EXPERIENCE

Junior Researcher @ Faculdade de Ciências da Universidade do Porto   November 2020 – Present

- Studied the detection and prevention of denial-of-service (DoS) attacks on software-defined networks (SDNs).
- Implemented an ONOS cluster to control a software-defined network (SDN), increasing resistance to attacks.

Software Developer @ First Solutions – Sistemas de Informação, SA   March 2020 - October 2020

- Built a cross-platform mobile application to schedule, consult and manage medical appointments and procedures using Ionic Framework, Angular and Spring.
- Implemented OAuth2.0 based authentication and authorization as a first level of security.

Pool Lifeguard @ Câmara Municipal de Vila Pouca de Aguiar   June 2019 – September 2019

SKILLS

- Experience with various programming languages such as Bash, C, HTML, Java, JavaScript, Python and SQL and frameworks such as Angular, Ionic and Spring.
- Knowledge on Agile development and version control using Git.
- Knowledge on application security practices, SIEM solutions and ethical hacking.
- Fluent in English (C2 level by Cambridge University).
